

# WISI GT DT2MIDE

T2-MI de-encapsulation

## Description

The TANGRAM T2-MI de-encapsulation is enabled by the SW options GTT2MIDE (1 de-encapsulator with up to 2 PLPs), GTDT2MIDE (2 de-encapsulator with up to 4 PLPs) and GTQT2MIPL (4 additional PLPs). Complying with the T2- MI EN TS 102 773, the TANGRAM T2-MI de-encapsulator gives professional T2-MI inputs and sizes of cable networks.

## At a glance:

- T2-MI Stream input via tuner
- De-Encapsulation of T2-MI streams
- Supporting up to 4 De-Encapsulators
- Support up to 19 PLPs
- T2-MI to MPEG-TS functionality
- Remultiplexing of service from PLP
